

Dear [ADD THE NAME OF YOUR FEDERAL REPRESENTATIVE HERE],

Emergency health measures have been in place since mid-2020. Canadians do not know what science our governments are using to justify them. A two week, one-man protest titled **SHOW US THE SCIENCE** will be held in October on Parliament Hill (File number: 2021-177) that demands the Federal Government disclose the science it is using to justify the emergency health measures. Details of the protest and its demands are included the file attachment to this email.

As my federal representative, I am notifying you that I fully support the **SHOW US THE SCIENCE** protest. Its demands are extremely reasonable and of real interest to me and ALL other Canadians. I am requesting that you support this protest and take effective action to ensure the demands it is making are fulfilled by the Federal Government.

Sincerely,

[ADD YOUR NAME HERE]
